

2018-19 Puesta del Sol Robotics Innovation Lab Classes

Engineering for Kids

Puesta del Sol offers free Innovation Lab (Robotics) classes for all students through our partnership with the Bellevue Schools Foundation. Our Innovation Lab program helps to establish science, technology, engineering, and math concepts while also building on students' team-building skills through fun challenges. Through hands-on learning experiences, students further develop:

- ★ Creative thinking skills
- ★ Problem-solving skills
- ★ Social skills
- ★ Computer programming skills

Registration Process

To register your child, fill out and return the bottom portion of this form as soon as possible. A lottery will be held for each session if the number of registrations exceed capacity. Siblings will be registered for the same session to accommodate transportation. Due to high interest, students will be able to participate once during the school year. For questions, please contact Sra. Delia Villanueva, villanuevad@bsd405.org.
